PROFESSIONAL SUMMARY

AI & ML undergraduate with practical experience in machine learning, computer vision, and AI automation. Proficient in Python, OpenCV, NumPy, Pandas, and web technologies for building intelligent applications. Experienced in designing automated workflows and integrations using n8n to streamline data-driven processes. Strong foundation in Data Structures, Object-Oriented Programming, and core computer science concepts, with a focus on developing scalable and impactful AI systems.

EDUCATION

CMR Technical Campus, Hyderabad *2023 — 2027*
BTech in Computer Science (Artificial Intelligence & Machine Learning) *GPA: 8.4*
Bhavans Sri Rama Krishna Vidyalaya,Sainikpuri *2021-2023*
Maths+Physics+Chemistry+Biology (CBSE) Percentage : 85%
Bhavans Sri Rama Krishna Vidyalaya,Sainikpuri *2021-2023*
Maths+Physics+Chemistry+Biology (CBSE) Percentage : 92%

SKILLS

Programming Languages: Java, Python, R, C
Web Technologies : HTML,CSS,JavaScript
Frameworks & Libraries: NumPy,Pandas,OpenCV,Streamlit,FastAPI
Developer Tools: Git, GitHub, VS Code, Figma,Linux(Basics),Canva
Soft Skills: Problem Solving, Debugging & Analytical Thinking, Communication Skills, Team Collaboration, Time Management, Adaptability & Willingness to Learn
Automation & Integration Tools: n8n

PROJECTS

Personal Portfolio Website (HTML, CSS, JavaScript)
- Designed and developed a responsive portfolio website to showcase projects, technical skills, and achievements with smooth navigation and modern UI design

Naarisetu – Women Health Management Mobile App(ReactNative,Python)
- Developed a mobile app to track **period cycles, moods, blood pressure, and sugar levels** for better health monitoring.
- Provides **diet recommendations, medical test suggestions, health education**, and securely stores users' medical information.

Smart Attendance System (Python, OpenCV)
- Developed a face-recognition-based attendance system that automatically detects faces and records attendance using computer vision techniques.

CERTIFICATIONS

Introduction to Networks, Switching, Routing & Wireless Essentials, Enterprise Networking, Security & Automation – **Cisco Networking Academy**
Ethical Hacking Internship – **EduSkills**
Generative AI & ChatGPT – **GeeksforGeeks**
Tata Generative AI Program – **Tata**
Introduction to Industry 4.0 & IoT – **NPTEL**
AI Advanced Training – **Hexart**
Data Analysis with Python (Pandas) – **Kaggle**
Artificial Intelligence, Natural Language Processing, Data Science, Computer Vision, Deep Learning – **Infosys Springboard**
